CLASS 2 DONGLE

Interlink Nano Bluetooth Class 2 Dongle VP6494 by SMK-Link

INTERLINK ELECTRONICS SMK-LINK

System Requirements

Hardware: 1 available USB port
Operating System: Windows 2000, XP or Vista

Package Contents

- Nano Bluetooth class 2 dongle
- Bluetooth software CD-ROM
- User's manual

Installing the Nano Bluetooth Dongle

- Insert the included Bluetooth software CD-ROM into your desktop or notebook computer's CD drive.
- Insert the nano Bluetooth dongle into an available USB port on your desktop or notebook computer.
- Follow the on-screen instructions for software installation.

Operating Tips & Trouble Shooting

- Some Windows-OS already support Bluetooth protocols. You may choose to install and use the included Bluetooth software or the Windows Bluetooth software if it's already installed in your computer.
- After successfully installing the Bluetooth software and adapter, you may connect your Bluetooth-enabled computer to any Bluetooth devices. During the pair-up process (please consult your Bluetooth device user's manual for instructions) it may ask for a passkey. Use "0000" (4 zeros) if your Bluetooth device does not provide a passkey. If it fails to accept this passkey please consult with your Bluetooth device manufacturer for instructions.
- The Bluetooth class 2 dongle supports up to 7 Bluetooth devices with a maximum transmission range of up to 33 feet/10 meters. Always use your Bluetooth devices within this range to avoid loss of transmission.
- The Interlink Nano Bluetooth Class 2 Dongle is designed to be plug-in and leave-in with the computer without the need to be removed when traveling. Nevertheless precaution should be used when storing your Bluetooth computer in its carrying case:
  - When the computer carrying case is too small/tight, remove the dongle, keep it in a pocket inside the carrying case, and plug it in to the USB port again when the computer is out of the carrying case. You don't need to reinstall the Bluetooth software, nor do you need to reconnect your Bluetooth devices again as the connection stays intact even when the dongle is removed temporarily.
  - When carrying your Bluetooth computer in a case, try to position the side with Bluetooth dongle facing up to avoid exerting pressure to the dongle.

Product Specifications

- Bluetooth v2.1 with EDR (Enhanced Data Rate)
- Class 2 supports up to 33 feet/10 meters range
- USB 2.0 physical interface
- OS compatibility: Windows 2000, XP, Vista
- Dimensions: 0.5" x 0.8" x 0.2"
- Weight: 5.5g
- BQB, FCC and CE certified

Warranty

SMK-LINK ELECTRONICS CORPORATION (SMK-LINK) warrants to the original end-user purchaser of the Product ("you") that the Product, excluding batteries, will be free from defects in materials or workmanship under normal use and service for one-year from date of purchase. Dated invoice or sales receipt is necessary to accompany the Product returned for warranty service consideration. Any Product repaired or replaced under the terms of the warranty is covered for the remainder of the original warranty period or ninety (90) days from

the date of service or return shipping, whichever is longer. If the Product becomes defective in materials or workmanship during the warranty period, SMK-LINK will, at its option, either repair or replace it with a more current or upgraded model if the originally purchased model is not available. This warranty does not cover products which have been subjected to misuse, accident, physical damage, improper installation, abnormal operation or handling, neglect, inundation or fire, or when product regulatory label has been removed, altered or rendered illegible; nor does it cover accessory and consumable items. In no case shall SMK-LINK be liable for any indirect special, incidental, or consequential damages based upon breach of warranty, breach of contract, negligence, strict tort or any other legal theory. Such damages include, but are not limited to, loss of profits, loss of savings or revenues, inability to use the product or any associated equipment, cost of capital, cost of any substitute equipment, facilities or services, claims by third parties other than you, and injury to property. SMK-LINK's total liability for damages for any cause related to, or arising out of, the use or inability to use the product, shall not exceed the original price paid for the product even if SMK-LINK has been informed of such possibility. If your Product requires warranty service, you must first contact SMK-LINK Product Support to receive an RMA Number. The contact information can be found on SMK-LINK website: http://www.smklink.com/support/contactsupport.html.

This warranty does not affect your statutory right and you may also have other rights which vary from state to state. Unless modified in writing, signed by both you and SMK-LINK, this warranty is understood to be the complete and exclusive agreement between the parties, superseding all prior agreements, oral or written, and all other communica¬tions between the parties relating to the subject matter of this warranty.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Notice: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Extension cables are not recommended, if used, they must be shielded in order to comply with the emission limits.

IC Certification

The term "IC" before the certification/registration number only signifies that the Industry Canada technical specifications were met.

Declaration of Conformity

Hereby, SMK-Link Electronics Corporation declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
All trademarks and registered trademarks mentioned in this document are the property of their respective owners.
Features and specifications are subject to change without notice.
